

Website Development Proposal

Mr. Adesh Khadka
Godawari Riverside Resort
Email: godawairiversideresort@gmail.com
Prepared by: Webtech Nepal
Date: May 9, 2025

1. Objective

To design and develop a professional, visually appealing, and fully functional website for **Godawari Riverside Resort** that:

- Showcases resort amenities and services
- Supports online room bookings and inquiries
- Enhances brand identity and credibility
- Is mobile-friendly, SEO-optimized, and user-friendly

2. Features Overview

Features	Description
Homepage	Engaging visuals, highlights, and CTAs
About Us	Resort story, mission, and team
Room Listings	Photos, descriptions, rates, and availability
Online Booking or Booking Inquiry Form	Simple booking or request submission
Photo Gallery	High-resolution images of resort, rooms, and events
Facilities & Activities	Details on services like dining, spa, hiking, etc.
Google Maps Integration	For directions and location visibility
Testimonials or Reviews	Client feedback section
Contact Us Page	Contact form, phone, email, and address
Social Media Integration	Icons linking to Facebook, Instagram, etc.
Basic SEO Optimization	Meta tags, keywords, alt texts
Admin Dashboard (for dynamic version)	To manage rooms, bookings, and content (if applicable)

3. Development Options & Pricing

Option A: Static Website

Best for: Simple online presence with no backend management

- **Technology:** HTML5, CSS3, JavaScript
- **Pages:** Up to 7
- **Responsive Design:** ✓
- **Booking Inquiry Form:** ✓ (Email-based)
- **Gallery:** ✓
- **Estimated Cost:** NPR 25,000 – 35,000
- **Timeline:** 7–10 working days

Option B: Dynamic Website (with CMS – WordPress)

Best for: Easy content updates and blogging capability

- **Technology:** WordPress CMS + Elementor
- **Pages:** Unlimited
- **Online Booking Form or Plugin Integration:** ✓
- **Admin Panel:** ✓ (Easy to manage content)
- **Blog / News Section:** ✓
- **SEO & Speed Optimization:** ✓
- **Estimated Cost:** NPR 45,000 – 60,000
- **Timeline:** 10–15 working days

Option C: Advanced Booking Website (with Custom Booking System)

Best for: Direct room booking, price calendar, and availability control

- **Technology:** Laravel (or WordPress with WP Hotel Booking Pro Plugin)
- **Custom Booking Engine:** ✓
- **Room Management Dashboard:** ✓
- **Online Payment Gateway Integration:** ✓ (Khalti, eSewa, Fonepay – optional)
- **Estimated Cost:** NPR 80,000 – 120,000
- **Timeline:** 3–4 weeks

4. Optional Add-ons

Service	Description	Price (NPR)
Domain & Hosting Setup	1 Year (Shared Hosting)	5,000 – 10,000
Logo Design & Branding	2-3 concepts	3,000 – 7,000
Annual Maintenance Package	Minor updates, security, backups	10,000/year

5. Why Choose Webtech Nepal?

- Over 10 years of experience in hospitality websites
- Custom design with user experience focus
- Local support and technical training
- Scalable solutions for future upgrades

6. Next Steps

If the proposal is acceptable, please confirm your preferred option. We will:

1. Share a formal agreement and timeline.
2. Begin with the design mockup.
3. Proceed with development after your approval.

Best Regards,

Suraj Adhikari
